Which tests should I request? Recommendation by Dr. Armin Schwarzbach:

If you suspect an acute case of Borreliosis, e.g. if you have a Bull's Eye rash or flu-like symptoms after a tick bite: **1. Borrelia Elispot (test #1) 2. Borrelia IgG/IgM Seraspot (test #4)**

If you suspect a chronic case of Borreliosis:

1. Borrelia Elispot (test #1) 2. CD3/CD57+ cells (test #2) 3. Borrelia IgG/IgM Seraspot (test #4)

If co-infections are suspected, a co-infection checklist is available for therapists, who can use it to work out which co-infections are most likely. Please contact AONM if you require assistance with this.

Once the relevant tests have been selected, please do the following:

Data Protection. Consent to data transfer and discharge from the duty of (medical) confidentiality. I hereby give my consent for my personal data and treatment data to be collected, stored, processed and used. I also agree that my data, which are necessary for invoice processing (e.g. name, date of birth, address, date of treatment, service codes, invoice sums, treatment documentation) will be disclosed to "Academy of Nutritional Medicine (AONM), St. John's Innovation Centre, Cowley Road, Cambridge CB4 0WS" and "ArminLabs, Zirbelstrasse 58. 2nd floor, 86154 Augsburg, Germany for the purpose of the creation of invoices or for collection of receivables or – if necessary – for judicial enforcement. This declaration of consent can be revoked at any time with effect for the future. In this respect I release my treating practitioner, AONM and ArminLabs and their employees from their obligation of (medical) secrecy. I also agree that the laboratory results, which are obtained within the scope of this laboratory order, will be disclosed to my treating practitioner.
